Payment required for some channels and content. Channels are subject to change and vary by region.
*Kantar, May 2020—Based on hours streamed.

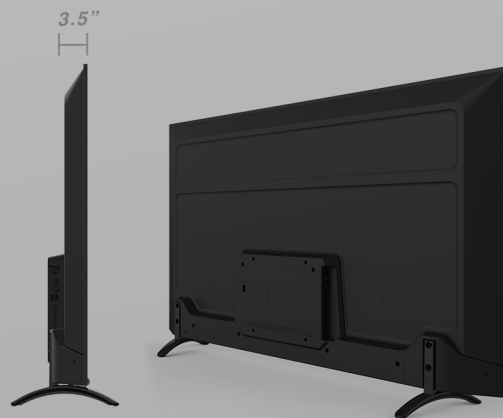

In addition to supporting the 2.4 GHz Wireless-N standard, the InFocus Classic Series support the 5 GHz frequency band, operating on the newer 802.11ac standard. Supporting aggregate speeds up to 2,167 Mbps or more for a seamless connection.

The established standard for home theater, broadcast, and cinema surround sound, Dolby Digital 5.1 redefined the entertainment experience for audiences around the world. Dolby Digital places you in the center of the action.

Enjoy crispness and depth with darker blacks and whiter whites in every image. Experience vivid colors and detailed contrast so lifelike you'd swear you were there in person. Paired with a wide 170 degree viewing angle, a crystal clear image is always front and center.

Remote control has direct access buttons to the channels
